

Camp SEA Lab

Residential Outdoor School Program

Camp SEA Lab is the only residential marine science outdoor school based in Monterey Bay. We serve classes in grades 5-8. Science, education, and adventure are the focus as students explore the marine and coastal world by foot, kayak, and microscope at each of our two sites...

Site #1: Monterey Bay Academy

- 3, 4, and 5 day program options
- Program size: up to 35 students
- Group size average: 15 students per instructor
- Includes program transportation, room & board, journals and student t-shirts.
- Programs include everything provided in our Camp St. Francis program as well as the following options:
 - Watershed hike in Elkhorn Slough
 - Mini research submarine construction & deep sea studies
 - A town hall-style debate on marine issues
 - Tidepool explorations
 - Seymour Discovery Center or Monterey Bay Aquarium visit (additional fee may apply)

Site #2: Camp St. Francis

- 3 day, 2 night residential program
- Program size: up to 90 students
- Group size average: 15 students per instructor
- Includes program transportation, room & board, journals and student t-shirts.
- Programs include:
 - Kayak in Elkhorn Slough
 - Night Beach Walk & Campfire
 - Squid Dissection
 - Plankton Labs
 - Invertebrate Surveys
 - Beach Exploration
 - Ocean Currents Lab
